

Deep Sea Defense (DSD) Planning & Design

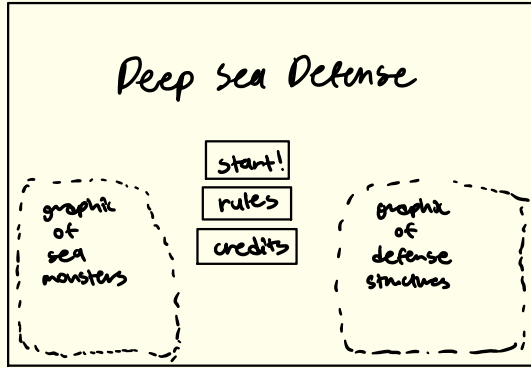

15-112 Term Project

Dheeraj Vislawath

Screen Mockups (Oct 30th)

Function Ideas

'start' screen

- utilize cmu_graphics screens (maybe seperate into files?)

widgets.py

class Button → needs to form a clickable button that guys and does some action.

class TextInput → needs to get user text input

Finding the next coordinate for an enemy.

Find total distance

Then find coordinates of monster after a step
towards the target

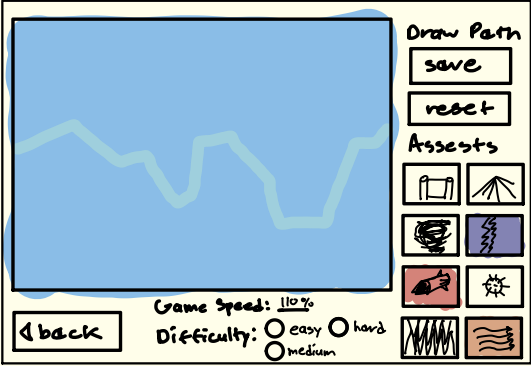

Story board

title screen

map editor screen

(initial)
game screen

(spawning monsters, adding towers)
game screen

(special power use)
game screen

(game over)
game screen
